

LETTER OF RECOMMENDATION

Clear thinking, level headed individual is how I describe Mr. Aditya Agrawal. This quality of his, became evident during my interaction with him, as an Assistant Professor taking his Computer Science courses. My acquaintance with him, spread over 3 years, has given me an opportunity to observe him closely and judge his capabilities.

A student with an excellent ability for logical and intuitive thinking, He has proved himself to be a talented and brilliant student. His ability to understand a problem and to conceptualize & analyze a situation needs a special mention. Apart from being technically sound, Aditya has shown a penchant for grasping and visualizing practical difficulties and this makes him a potential research student.

He has done the mini project titled "Vehicle Speed Detection and Number Plate Recognition to avoid overspeeding on a highway" under my guidance. He was the team leader for the project, and I have seen his dedication, hard work, and keenness to do the project and also teach his team members with great enthusiasm.

A good, wholesome personality coupled with leadership qualities makes him an asset to any team he may work with. His aplomb and alacrity wonderfully blended with sociableness will be a great source of motivation for the members of the team he is in.

I would rate him in the Top 10% of students in his class. I am confident that he, as a student with great zeal for higher academic pursuits and aptitude for research, will do well. I strongly recommend his candidature for your graduate program with full financial assistance.

Dr. Madhuri Tayal

Assistant Professor

Shri Ramdeobaba College of Engineering and Management

Assistant Professor

Information Technology

Shri Ramdeobaba College of

Engineering and Management, Nagpur. '19
